B. Variances

To authorize, upon appeal, in specific cases, such variances from the terms of the Zoning Resolution as will not be contrary to the public interest, where, owing to special conditions a literal enforcement of this Resolution will result in unnecessary hardship or practical difficulty, and so that the spirit of this Resolution shall be observed and substantial justice done, but only when the Board is satisfied that a granting of such variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship, or difficulty so great as to warrant a variation from the zoning plan as established by this Resolution, and at the same time, the surrounding property will be properly protected.

C. Conditional Uses

To authorize establishment of conditional uses where such uses are specifically enumerated within a zoning district and where the Board determines that such uses comply with the requirements of Article XIV of this Resolution.

D. District Boundaries

To determine the exact location of any district boundary if there is uncertainty as to the exact location.

The Board shall have the authority to and may grant the following variations:

(a) Permit a variation in the yard requirements of any district where there are unusual and practical difficulties or unnecessary hardships in the carrying out of these provisions due to an irregular shape of the lot, topographical or other conditions, provided such variation will not seriously affect any adjoining property or the general welfare.

(b) The extension or completion of a non-conforming use upon a lot occupied by such use, provided that such lot was under the same ownership as the lot in question on the date such use became non-conforming, and where such extension is necessary and incidental to the existing use; provided, however, that the areas of such extension shall not exceed in all ten (10) percent of the area of the existing non-conforming use and provided further that such extension shall be undertaken within five (5) years of the date when the use becomes non-conforming.

(c) In considering all appeals and all proposed exceptions to this Resolution, the Board shall, before making any exceptions or variations from the Resolution in a specific case, first determine that it will not impair an adequate supply of light and air to adjacent property or unreasonably increase the congestion in public streets, or increase the danger of fire or endanger the public safety, or unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals, or welfare of the inhabitants of the portion of the township to which this Resolution applies.

Section 16.04 Standards for Variances

In exercising the power to grant variances, the Board shall make specific findings of fact with regard to the following standards. The factors to be considered and weighed by the Board in determining whether a property owner has proved practical difficulty or unnecessary hardship include, at the minimum the following:

- A. Whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance;

- B. Whether the variance is substantial;
- C. Whether the essential character or the neighborhood would be substantially altered or whether adjoining properties would suffer a substantial detriment as a result of the variance;
- D. Whether the variance would adversely affect the delivery of government services (i.e., water, sewer, garbage, fire, police, or other);
- E. Whether the property owner purchased the property with the knowledge of the zoning restriction;
- F. Whether the property owner's predicament can be obviated through some method other than a variance;
- G. Whether the spirit and intent behind the zoning requirement would be observed and substantial justice done by the granting of the variance;
- H. Whether the granting of the variance will be contrary to the general purpose, intent and objective of the Zoning Resolution or other adopted plans of the Chippewa Township Trustees;
- I. Whether the variance requested arises from a condition which is unique and which is not generally shared by other properties in the same zoning district, and which is created by the Zoning Resolution and not by any action or actions of the property owner or the applicant; and
- J. Whether the variance desired will adversely affect the public health, safety, morals or general welfare.
- K. Any other conditions that the Board of Zoning Appeals may deem necessary.

Section 16.05 Procedures for Administrative Appeals and Variances

A. Administrative Appeals

The appellant shall submit a written statement describing the administrative action or decision appealed, the allegation of any error of law, the basis for such allegation, and the requested relief. Such appeal shall be taken within twenty (20) days after the subject action or decision by filing the written statement with both the Zoning Inspector and the Board of Zoning Appeals. The Zoning Inspector shall transmit to the Board all papers constituting the record upon which the action appealed was taken.

An appeal shall stay all proceedings in furtherance of the action appealed from unless the Zoning Inspector shall certify to the Board of Zoning Appeals after the notice of appeal shall have been filed with it that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board or by a court or equity, after notice to the officer from whom the appeal is taken and on due cause shown.

The Board shall refer all applications for conditional uses or other use interpretation questions to the Zoning Commission for recommendation at least ten (10) days before the hearing on said matter.
